

## RESIN SPIRAL BANDS - DRY RUNNING

### KGS Swiflex® SDA

#### Application

New dry running option - KGS Swiflex® SDA Spirals. Some glass companies find them more user friendly than the Nickel Bond versions.

Care must be taken to avoid reflected heat generation on Glass.

#### Speed

Max. 45 m/s  
Optimum speed will vary with the material ground.  
Slower speeds may prove beneficial with the finer grits.

#### Features

Can be used on very difficult materials such as Rhodium, Iridium and other difficult materials such as Titanium and Technical Ceramics including Tungsten Carbide.

#### Accessories

Rubber Drums are available.
