

SPIRAL BANDS

KGS Telum®

Application

Specialist glass companies utilise KGS Spiral Bands and K-LOC discs for artistic or technical applications.

Spiral Reamers are available in $\varnothing 15, 22, 25, 30, 45$ mm etc.

Spiral Bands are available up to $\varnothing 150$ mm for expanding rubber drums.

These products are mainly used in the Crystal Glass Industry, Lapidary and Technical Quartz manufacturing but also in the Stone Industry.

Speed

Max. 45 m/s

Features

The KGS Telum® pattern is generally best for corner dubbing machines and can be run with minimum coolant.

Resin Bands are good for polishing on suitable machines.

KGS Swiflex® SDA dry running spirals are also available.

Accessories

Rubber Drums are available.
